Special Cable Despatch to THE SUN KIEL, June 25.—Emperor William re turned the visit of Rear Admiral Cotton to the royal yacht Hohenzollern yesterday by calling on the American commander on the flagship Kearsarge at 11:30 o'clock this morning. The Kaiser told Admiral Cotton that i would give him great pleasure to telegraph President Roosevelt and tell him of the perfect condition in which he found the flagship and the fleet.

Ambassador Tower was received by Emperor William in the forenoon. They had long conversation.

The Admiral and officers of the American squadron dined to-night with the Kaiser and Kaiserin Augusta Victoria on board the royal yacht Hohenzollern. The chief toast was one to President Roosevelt, proposed by the Emperor. Admiral Cotton and the officers will dine with King Edward on the occasion of their visit to Southampton. While being rowed about the harbor this

morning the Kaiser stopped at Mrs. Goelet's yacht Nahma, but there was no one On Saturday the Kaiser and the German

officers will be entertained on board the flagship.

Rear Admiral Cotton explained to-day that the reference to his services in 1863 by Emperor William yesterday, during the conversation on the Hohensollern, was an allusion to the fight between the Monitor and the Merrimac. The Emperor thought the Rear Admiral had been aboard the Monitor, but this was a mistake.

Admiral Cotton and the officers of the squadron are greatly struck with the departure from naval practice made by Emperor William in flying the American flag on the royal yacht Hohenzollern alongside the imperial standard. It was evidently intended as a special compliment by the

Kaiser.
WASHINGTON, June 25.—Secretary of the Navy Moody to-day received a telegram from Rear Admiral Cotton reporting that the squadron's reception at Riel has been of an extremaly cordial and flattering character. The message has given much grati-fication to the President and the authorities

With the expression of my warmest thanks, I assure you that the equadron is warmly welcomed here, and will, I trust, make an agreeable stay. NEW WAY TO GROW SUGAR CANE. Good Results From Giving the Cane More Hoom.

Special Cable Despatch to THE SUN. HAVANA, June 26 .- A committee of the Planters' Society has made a report on a special mode of growing sugar cane which has been tried here. It consists of planting the cane in rows four yards apart, each plant or group of shoots being three yards from the next, thus allowing the roots and foliage full scope.

Only those shoots and pieces of cane which are full grown are cut, the smaller ones being left to ripen. The committee says that by this means the yield to the acre is enormously increased. It is said that the yield in weight of cane of the piece of land on which the experiment was mad was 100 per cent. greater than is obtained by the present method, by which the cane is grown much closer. Further experi-
